It has become fashionable in New York for brides to give presents.

At least one of them, the other day, gave some of the guests the surprise.

The editor of the Hamilton Herald, when he comes here to the Old Boys' Reunion, had better with discretion, if he comes up before the Club I can see his finish, and he will be the first to know.

Belleville's police magistrate went to Toronto last week to have a good time, and he wrote to the Belleville papers describing the noteworthy things which he saw and heard in the "primitival metropolis."

A girl paper says the "off-the-ear" hair is becoming prevalent in Ontario, but it is not so painful to gaze upon as the off-the-back.

Those who the city had the couple of invisible about, there wouldn't be any chance to give 'em to the Government for a gift of a live, wailing three!

Curried milk, prepared after a Bulgarian method and called yagurt, is now the thing in Paris and is said to keep people from growing old. An English correspondent recently tried some and said that he preferred to die young.

The warm weather is coming, and the only ones we feel sorry for now are the people who get hay fever every summer.

A New York woman was recently photographed wearing \$800.00 worth of pearls, the other portions of her attire are not mentioned in the description.

George Tinsley, Mr. Barker's chief counsel, is now attending to his duties by advising them to do as they please.

But perhaps the very thing he doesn't want to do.

"What?"
"I'll be off with me in the party Mr. Brown, you know," replied the girl.

"I believe a house should be kept just as it is," said the old man.

"Well, look at this," replied the old man. "It's a house that's been built for a long time."

"I certainly don't," said the old man. "It's a house that's been built for a long time."

Very Best.
 "I have been using Chamberlain's Cough Remedy and want to say it is the best cough medicine I have ever taken," says Geo. L. Chubb, a merchant of Har-
 risburg, Mich. There is no question about its being the best, as it will cure a cough or
 cold in less time than any other treatment. It should always be kept in the house
 ready for instant use, for a cold can be
 cured in much less time when promptly
 treated. For sale by all druggists.

WHY TRAVEL ABROAD?

An American should give his first thought to his home life. When they travel, they should be able to afford to travel to any part of the world, for what is there in it that could approach in power of exertion those of the United States? There is no "unconquered" place in the world that is not within the reach of the American. Accuracy Doubly Insured.

In a store arranged and conducted like ours there is small chance for error; all prescriptions are filled by registered druggists of special experience, who can be depended upon to give the best results. But to make accurate, doubly sure we employ the double check system, under which two persons check separately; independent of every prescription. You should have such service, and it costs nothing extra to have it. Our prices are never higher than elsewhere.

MUSIC AND THE DRAMA.

—RADES IN TYDAN—

Assuredly one of the best attractions that ever visited Belleville was the musical extravaganza, "Rades in Tydan," which held the boards of the Carman Opera House last night. There was a very large and fashionable audience present, and the entertainment will probably leave in the memories of the local people.

The play is a very long one, and after a rather rapid start, it is a play that will occupy the audience's attention for a long time, and as a consequence not more than half the audience will be in their seats when the curtain went up.

In a rather a play that will occupy the audience's attention for a long time, and as a consequence not more than half the audience will be in their seats when the curtain went up.

The company was exceptionally large and strong, and the acting was superb, the scenery magnificent, the musical effects wonderful, the choruses well-balanced and well-directed, the dialogue witty and sparkling, and the plot, both in itself and in its relation to the play, was well conceived and well executed.

A DOLLAR PER MONTH FOR SHOES.

THAT is about all it should cost you! But—It depends upon the Sole leather in the shoe as to what it actually does cost you.

Some shoe Soles were only forty days.

Others were one hundred and forty days.

Some shoe Soles made through to your feet in less than one hour's walking and forty days.

One other kind—"Quick-Ok" Soles—can't be soaked through in less than four hours stepping in a basin of water. How are you to know which kind of Sole leather you are getting in the shoe.

Well—the Slater Shoe Company control the new process "Quick-Ok" brand of Sole leather in the world. You may test this leather in a basin of water, and prove what it is claimed for.

It is the toughest, cleanest, strongest, wind-resistant and most water-repelling Sole leather ever tanned.

It is used in genuine Slater shoes, and in no other shoe.

If you find the slate-trade-trade-mark of "The Slater Shoe" worn on the lining of the shoe top, with the retail price (\$4.50 or \$5.00) you'll know positively that you are then getting "Quick-Ok" Sole leather, and the most reliable shoe-making material in America.

"Quick-Ok" Soles have been worn some months continuously without actual test.

Russ Rear Guard Was Driven in.

Marshal Oyama's Successful Movement Well Developed.

Japanese Centre Has Advanced as Far as Slatkuz and That Is Regarded as Extremely Significant—Advance Against Linovich's Right Wing Is Now in Full Swing
—Fear Russians Are Cut Off.

Tokyo, May 25.—Bulletin from the Manchuria war field received last night indicate that Marshal Oyama's successful movement is well developed, and that the enemy's rear guard has been driven in at all points west of the railroad. A bulletin announcing that the Japanese "entire army" had advanced as far as Slatkuz is regarded as extremely significant, as this point is 14 miles north of Pafkum, where the fighting commenced in the general advance took place last week. It is clear that the Russian line has been driven in on the southwest, and that the advance movement against the right wing of Gen. Linovich's army is in full swing. These bulletins were made public by the Imperial army board.

Raincoats. --- Topsuits.

FOR MEN AND YOUNG MEN.

To the judge of good clothes and up-to-the-minute dresser, our showing of Raincoats and Topsuits is impressive. The material variety of many well designed styles, the excellent workmanship, the goodness of material, the perfect fit—are so strongly marked that the garments appear more like the products of some well custom tailor—and are really only to be distinguished there from by the difference in price, which is about half.

In Raincoats we show the different styles—made of guaranteed Shower Proof Cloth, and, of course, coloring. In Topsuits and Overcoats all cloths, weaves and shades are shown in the newest and most approved models.

Baron Alphonse de Rothschild was the second son of Baron James de Rothschild, having succeeded his brother, the late Baron Edmond James de Rothschild at head of the Paris house. Baron Alphonse was born February 1, 1827. He was a governor of the Paris Exposition of 1867.

Premier Haultain and R. L. Borden to
Address in the Riding.
Woodstock, May 27.—The preparations so far for the campaign in North Oxford indicate that it will be one of the most serious and most important election contests in the history of Can-

At. Among the prominent speakers already arranged for are Premier Haultain of the Northwest Territories, E. L. Borden, R. R. Bennett of Calgary, member of the Northwest Legislature; Hon. G. E. Foster and Dr. Sproule. Premier Haultain will address two or three meetings in the riding and at least one in the city. The date of the city meetings will be June 10. Dr. Borden

J. G. Wallace, the Conservative nominee, is already at work. In the liberal ranks the important question is that of the nomination. There is a serious fight for it between F. W. Nesbitt and George Smith and every prospect of a split resulting in both men remaining in the field. Both are work-

ANAEMIA

Is thin blood. It causes pale faces, white lips, weak nerves and lack of vitality. A blood-

enriching, fat producing food-medicine is needed. Scott's Emulsion ~~is~~ the root of the trouble, strengthens and enriches the blood, and builds up the entire system. For

anaemic girls, thin boys, and enfeebled mothers, it is the standard remedy. It builds up and strengthens the entire system with wonderful rapidity.

REASON No 36

WHY YOU SHOULD USE

Because it is Economical.

Red Rose Tea is composed of what are known in the trade as "high-grown" Ceylon and Indian teas. These teas grow at high altitudes on the mountain slopes, where the tea bushes grow more slowly and are more carefully cultivated than in the valleys, where the climate is hot and humid.

High-grown tea is not only a finer quality, but contains much more tea leaves or extract than valley-grown tea.

This can be easily proved by comparing a drawing of Red Rose Tea with any other tea. By doing so you will find that a pound of Red Rose Tea will spend as far as 1 1/2 to 1 3/4 lbs. of other teas.

The saving is most apparent in the Blue Label and better grades—buy a pound and make the test.

- And if builders of new houses knew all the good points of the "Bison" Hot Water Heater, they would have no other—if the very latest, newest development in the science of heating.
- The "Bison" cannot get dirty, no resting place in fire, making rapid and perfect no leak or escape.

- Fire travels over twice as much heating surface as in any other furnace.
- Doesn't draft trap heat, forcing it to do its best before it escapes.
- No non-conducting blanket of soot can collect on flues or water jacket.
- Most easily regulated draughts.
- Heats water at top first, making rapid and positive circulation, top section is always hottest.
- Strongest, simplest grates that cannot clog, stick or get out of order.

ONE YEAR'S LIBERAL EXPENDITURE.

Every reader will remember how Sir Richard Cartwright, Sir Wilfrid Laurier and others who were so active when in Opposition, used to have about the public expenditure when it has reached double the amount under Conservative rule now that it is under the management of public affairs, they smile and bluster till their confidence elsewhere when questioned that "times are growing."

Truly they are in medicine, agriculture, trade, where it will not under Liberal rule, no one can state.

Examining the current year's expenditure so far as brought to light, we find that the Government has expended about \$100,000,000 per annum under Conservative rule now that it is under the management of public affairs, they smile and bluster till their confidence elsewhere when questioned that "times are growing."

A POPULAR LAMENT.

Where Wouldst thou be O Son Who hadst for the time of Ours Who?

"O I find one of those hair combs sometimes and it never did me any harm, but I never used it."

That's what many people are saying for the time of Ours Who? It's a little bit of a lament.

It would be a mistake to say "I never trust a man called because I often see one named in the papers."

Nowadays the people are specially fond of the name of Ours Who? It's a little bit of a lament.

TIMELY TOPICS.

Really, you know, I'd like to see the new drill also performed before this extravagant going on in Ottawa spends all the money.

Isn't it hardly to have the guests walk through poor weather?

Now is the time to all your back-logs. If you have not attended to it this spring, get busy.

This being Trafalgar year, there should be several historical scenes. Table talkers christened in this city.

Mulock's Method: A postmaster on St. George's Island, who retired six years ago, was dismissed because he voted Conservative. A postmaster at Thurston, who was only \$1,000 a year, was suspended for embezzlement, remained under suspension for nearly a year, during which he was paid \$1,000 a year. He did nothing, and was then re-instated. He was a Brit. That's what they call justice.

Ferventism and partnership in the leading features of the Mills Department in Ontario. Land for \$7,000 and risk taken is wanted by the Minister of Militia and Defence in Nova Scotia. The Government were at a cost of \$400,000—that is for 400 acres—back two G.M.P.'s, from whom it was purchased, \$1 and 12 per acre. In addition to this the Government spent on land in the same way. The Minister of Militia and Defence is in the process of purchasing military uses, out of the lands of private people. Why is that?

The superiority of railway locomotives manufactured in this country is shown by an order given to a Glasgow firm by the Japanese Government for one hundred powerful locomotives.

The Ottawa Journal said: "How would it be possible for the average man to retain respect for courts if there were many samples of such conduct as this? It is a judge allowing crime to escape punishment on the ground that a statute is not a convenience." It might have also cited the decision of a Nova Scotia judge the other day, that the serving of papers in an election contest on the candidate elected was wrong out of Canada, was not a legal service, and threw the case out of court. This decision was without a trial the Finance Minister and Minister of the Interior. The latter had tried to force, where he remained until the time for serving papers had also passed. The former had tried to force, and did not return until it was too late to serve papers upon him. If this decision is good law will a candidate have to do in future in a contest all the fraud known to Grit election methods; and if elected, fly to a foreign country, secure service and then pose as an innocent candidate.
